# ABOUT US

Coulton's Bread Limited was established in 1987 to meet a growing need for a professional bakery supplier for the North of England and Wales. From our headquarters in Liverpool, the Directors are very much a part of the day-to-day running of the business and our experienced staff plays an equally important role ensuring that everything runs as efficiently and as smoothly as possible.

## — Product Range —

We supply a large range of sliced bread from all the major bakeries as well as a wide variety of morning goods, rolls and confectionery products. Our product list is extensive (currently over 800 products), from small individual rolls to larger packs of barmes, baps and burgers, with all shapes & sizes of plain or seeded bread-roll products in between! We also sell a complete range of hotplate goods, potato cakes, crumpets etc. as well as an extensive range of individually wrapped cakes, flapjacks and muffins.

**Our product list is extensive...**  
currently over 800 products!

## — Deliveries —

Deliveries are based on our customers' requirements and are tailored to suit the size and individual requirements of the establishments concerned. Some customers require deliveries once or twice a week, whilst larger companies will require a daily delivery service. Time of delivery is also an important factor for many of our customers and we do our utmost to accommodate their requirements as much as we possibly can.

We deliver our products to a wide variety of catering establishments from small independent shops, cafes, hotels and schools to major catering organizations throughout our distribution area. We also have a network of agents throughout the surrounding areas of our coverage.

## — Vehicles —

We deliver over 4500 orders per week throughout the North of England. Our fleet of over 80 vehicles are constantly updated with up to the minute technology. We have tracker devices fitted to all our fleet in order to maximise fuel efficiency, plan our routes in the most cost effective way in order to help reduce our carbon footprint and provide the best service possible to meet the needs of our customers.

Vehicles are also fitted with handsfree technology so we are able to contact our drivers at any time whilst they are making our deliveries.

All vehicles are maintained on a regular scheduled basis to ensure that they meet our high standards and are running as cost effective and efficiently as possible.

**We deliver over 4500 orders per week...**  
throughout the North of England.
